LETTER OF RECOMMENDATION

A clear thinking, level headed individual is how I describe Mr. Anil Krishna Parvathaneni. This quality of Anil Krishna became evident during my interaction with him as an Associate Professor and project guide. My acquaintance with him spread over two years, has given me an opportunity to observe him closely and judge his guide lines. He has consistently shown a strong desire to learn, that I simply could not turn down his request for letter of recommendation.

In the process of mentoring him, I was impressed by his inquisitiveness, ingenuity in approaching the problem as well as his attention to detail. He was team leader of his project group and demonstrated his leadership skills and diligence in the process of smooth, successful and timely completion of his curriculum project.

In my view his academics, competence, perseverance and commitment, definitely makes him one of the most significant students I have ever seen. His meticulous approach towards subject reflects his maturity which would lead him to a successful student. His inherent ability to reason out things from basic concepts, his diligence and analytical approach in solving the problem and above all his pragmatic approach towards analyzing the concepts makes him an ideal candidate for a graduate degree.

He is a methodical student who is quick to understand the concepts taught and doesn't hesitate to clear his doubts. He puts in extra effort to keep himself updated with the latest trends in his field. He is an eager learner who is prepared to put long hours to secure his goals.

I strongly feel that he has the ability to make a significant contribution to the field of his preference. I avidly recommend him for admission to your graduate program with possible financial assistance at your University.

(Dr. D. Siva Prasad)
Associate Professor
